Projects

The Final Meltdown | Developer | Jan 2018 - present | **GITHUB**: thefinalmeltdown.github.io/theFinalMeltdown/
An open source VR app that uses A-frame to create an symbolic representation of the effects of climate change on the planet.
- Winner of the Red Hat Category Award Best Open Source Hack at SheHacks Boston 2018
- Used A-Frame animations to create shrinking iceberg animation
- Developed and designed project idea and outlined future goals for hackathon presentation

Sound&&Vision | Solo Developer | Nov 2017 - Present | **GITHUB:** github.com/keripmiller/soundandvision
An audio chat app that renders drawings as you speak.
- Practiced using the HTML canvas element to make drawings
- Collected user mic data to render shapes with P5.js and the window Navigator
- Used socket.IO to send user mic data to partners

Whiskr | Developer | Nov 2017 - Present | **GITHUB:** whiskapp.herokuapp.com
A progressive web app that connects users to local shelter animals in a Tinder like format.
- Integrated the petfinder api to fetch real pet and shelter data
- Uses React-Redux, Express and Sequelize
- Led development for Match Logic and Geolocation for app

Work Experience

J. Pocker | Accounts Payable Clerk   Apr 2013-Aug 2017 | New York, NY
Performed the accounts payable duties for a small family-owned business with 5 store locations through NY and CT.
- Efficiently processed 100+ vendor invoices weekly
- Obtained proper information and data regarding invoice payments for tracking purposes
- Maintained the vendor database with accurate and current information
- Researched and resolved all payment problems for production
- Assisted head bookkeeper with accounts receivable tasks during busy seasons.

Business Alternatives Inc. | eBay Store Manager   Jun 2011-Apr 2013 | Bronx, NY
Developed a service to curate and sell items for customers at a small business while I was a Data Entry Clerk.
- Researched customer's inventory to sell and valued them accordingly
- Provided quality photos for every item listing and edited them in photoshop
- Wrote detailed listing descriptions for ~100 items weekly
- Tracked and reported customer's listed items and running earnings weekly

Education

Fullstack Academy of Code | Grace Hopper Program | Dec. 2017

SUNY at Purchase College | B.A in Art History | Dec. 2012
